## Notice to all Plan Members – Coronavirus - COVID-19 – Information

---

As we are aware, we must all take precautions during this period to ensure we are protecting our health and that of others during these special circumstances. We would encourage you to be pro-active to ensure you remain healthy.

We all have a role to play but more importantly we need to show signs of respect, support and logic during this time.

Unfortunately, there is a fair amount of false information being provided regarding this virus. It is important to refer to evidence based websites for information so that you stay well informed.

We have added a number of links on our website for your easy reference which should assist you with questions you may have.

You may also wish to review the following websites directly:

Fraser Health Authority – Coronavirus Questions and Answers

HealthLinkBC 811

Service Canada Medical Employment Insurance - Coronavirus

We understand the Government of Canada has waived the one week waiting period to ensure Medical Employment Insurance is available to you during periods of quarantine should this become necessary. You may also wish to check with your Employer to confirm whether any special policy changes are being made at this time.

It is important that you stay aware of the travel advisories as they appear to be changing on a daily basis.

As always, the Plan office is here to answer any questions regarding your benefits and would encourage you to contact our office directly.

Sincerely,

  
Kelly Nicholson  
Plan Administrator
